

Dissolvable Frac Ball

Designed for multi-stage applications, the Innovex Dissolvable Ball utilizes proprietary material to meet specific wellbore environments. The Dissolvable Ball can withstand pressure differentials up to 15,000 psi and temperature ranges from 100°F to 350°F. Innovex offers both a fresh water dissolving ball and a chloride dissolving ball.

FEATURES & BENEFITS

- Temperature Rating: 100°F to 350°F
- Pressure Rating: Up to 15,000 psi
- Dissolve Fluid Type: Brine or Fresh Water Based
- Specific Gravity: Fresh Water Based = 2.7 Chloride Based = 1.85
